Additional Comments:

Great Conference

Fun, Great, Thanks! Enjoying and engaging!

I like this conference Center Much Better than the Space Dynamics. It is more comfortable and the technology is superior.

I would prefer have shorter breaks (if possible) and get done earlier. It would also be nice if there were any discounts on lunch associated with the conference. Overall, I was impressed. It is nice to have conferences like this offered locally. Thank you.

Most of the info presented is not new to me. However, this presentation provided an opportunity to reflect on strategies & approaches that are both "effective" and "failures." It allowed for an opportunity to look back and connect the dots. I am leaving today with joy in my heart and a greater sense of appreciation for the opportunities I have had to provide care, log and support to others as well as gratitude for those in my life that have provided that for me. I am leaving with a greater commitment to utilize the skills, information experience, etc. I have gained throughout my practice to encourage a growth mind set in others.

While the content was relevant to my work, the "level" was very basic. I did not learn much that was new.

New location has some positives but more overall negatives. Not sure if there is anything you can do about that.

Overall, I'm still very happy with the conference experience and presenter. I know these take a lot of work and planning. So Thank You!

This was awesome

Cold

Loved Dr. Brooks's humor!

This was excellent. Really appreciated the examples given to help the application of the resilient mindset!

These conferences are always fantastic! Thanks!

I really enjoyed this presentation. Dr. Brooks kept me engaged and interested despite me running on no sleep and 4 hours to get here. Good job!

Forced to park on the opposite side of campus. Missed a lot of the presentation due to having to walk so far.

Great presenter and always a great conference.

Well Done! Room somewhat cold

Excellent - would have benefitted from more concrete ideas for action

I liked the Eccles Conference Center format. It was such a nice change to not have any technology issues.

I loved how applied the content was.

Excellent & inspiring. Wonderful professional & human being.

Valuable presentation around resilience, wish we had more strategies to building resilience. Enjoyed style & storytelling of presenter. Maybe an email with short bio about presenter before presentation.

The presenter is very knowledgeable. Give that most people attended are psychologists & counselors. The presenter may consider to explain empathy and other concepts less & talk more about resilience.

Awesome presenter

Engaging, meaningful, and interesting presentation. The stories and real world examples were very helpful as I think about applying these concepts in my relationships and clinical work.

One of the most helpful presentations I've ever attended! I look forward to utilizing what I've learned here both professionally and personally. I never thought I'd want to work w/kids or adolescents, but after this I'm thinking I might be brave enough to move in that directions!

Room was cold

Great training to recharge and remind ourselves of why we do this.

Great Speaker. Examples where helpful in getting concepts. Great stage presence and very organized.

Concepts were easy to understand.

Parking was a challenge

Excellent

Don't like paying for parking; Didn't like not being able to take refreshments in room.

It would be helpful to have a facilitator who would ensure breaks ended on time so the presenter would start on time

Outstanding presentation- thoroughly enjoyed Dr. Brooks

Best presenter and material in years!

You guys do a great job of hosting very relevant, helpful workshops

Very helpful, engaging and accessible.

Orange juice tasted horrible

thank You

Very good! Appreciated him sharing his humanness with us!

Very engaging - helpful. Thank you so much!

Cold in the morning

Fun and engaging. Useful information for my practice & consultation work.

Really valuable!

It was very cold in the auditorium!

Excellent presentation! Inspiring content. Thanks for coming to present.

Excellent presenter. Would highly recommend to others. In six years of attending conferences/workshops since becoming a psychologist, this was the best. Please pass that on to Dr. Brooks.

Love the conference! Such friendly staff

this speaker's presentation is largely a collection of stories and snippets of his review of books by others.
